

Non excuses

To offer the best washing quality with

IBERCOMPOUND the only Spanish producer that uses FLUORITE POLYMER in its WAXES

CARFLON® Luxe

SPECTACULAR LUXURIOUS FINISH

Greatly resistant polymer that once applied guarantees an EXCEPCIONAL protection for vehicle surfaces and HIGH QUALITY finish. It forms a protector film that seals the pores and micro stripes and evens out irregularities creating an spectacular finish and exceptional brightness in all of the treated surface. This film maintains the vehicles cleaned and shining for a longer period of time and creates a dirt anti-adhesive effect.

Application recommendations:

It is implemented by a metering pump and an arc provided with air, achieving a foaming effect on the vehicle body.

It has completed the washing and rinsing processes the vehicle, the product is applied to the body without prior drying.

The use of osmotic water to terminate the application for optimal results is recommended. Then start the drying process.

Washing sequence: washing, rinsing, application, CARFLON, osmosis water and dry.

CARFLON® Polish

PROTECTOR AND RESTORATIVE WAX

CARFLON Polishing is a wax made of fluoride polymer specially designed to provide the vehicle with a high quality finish.

It features a restorative effect on the vehicle painting and much protection to it. At the same time, this wax also provides high gloss and water repellent immediate effects.

Application recommendations:

CARFLON Polish is applied after rinsing the vehicle. It is used by means of a dosing pump or venturi in facilities designed to spread the wax with brushes or chamois.

CARFLON® Wax

HIGH POLISH WAX WITH RESTORATIVE EFFECT

It is a product made for all kind of facilities without air or polish application capabilities.

Application recommendations:

CARFLON Wax should be replaced by the standard wax getting a HIGH QUALITY finish (high gloss and high hydrophobic effect). This wax provides all the features and advantages of CARFLON without a special application.

- ✓ REPELLENT EFFECT - Fast dry.
- ✓ ANTI DIRT ADHESION.
- ✓ HIGH POLISH.
- ✓ ATMOSPHERIC AGENTS PROTECTION
- ✓ MICRO STRIPES SEALING EFFECT.
