MODERNIZATION in manufacturing with the latest manufacturing technologies.

During these last years, *Ibercompound* has invested in the latest technologies with the aim of doubling its manufacturing capacity to supply to the new national and international markets.

The productive capacity must be linked to an Innovation project, the main objective of our company and therefore the investment in one of our laboratories to equip it with new high-quality and state-of-the-art equipment, in order to offer it to the market; INNOVATION, QUALITY, ADAPTATION, and SPECIALIZATION of our entire range of products focused on Vehicle Cleaning / Maintenance and Industrial Cleaning.

Ibercompound has made a firm commitment to the future in the development of new products, formulating more effective, innovative and less polluting products to offer a complete range that covers all the needs of our national and international clients.

WE HAVE MORE THAN 40 YEARS OF EXPERIENCE MANUFACTURING CHEMICALS PRODUCTS FOR THE AUTOMOTIVE SECTOR

- ❖ Different brands of washing equipment
- ❖ Different qualities of water
- ❖ Different application systems
- ❖ Different range / qualities of products
- ❖ Adaptation to different country regulations
- ❖ Adaptation to special customer requirement

A GREAT TEAM OF PROFESSIONALS SPECIALIZED AND FORMED IN CHEMICAL PRODUCTS AND WASHING PROCESSES

- ❖ Our organization is composed of: chemists, biologists, application technicians, commercial technicians, laboratory technicians, economists, specialists in production processes, etc...
- ❖ A template that combines youth and experience, discipline and seriousness in a coherent and ambitious manner.

We are in continuous development and pioneers in products for the Automotive sector, making a large investment in the research and in our R + D Department.

Continuous improvement of the products, assuming the commitment to continue investigating for developing new, more innovative and effective products, and without forgetting environmental protection and reduction of costs.

All products manufactured by *Ibercompound* are subject to strict quality controls carried out in our laboratories for compliance with the established specifications.

Our expansion plan started in recent years, positioned us as leaders in the sector at an international level, as a result of our professional work in manufacturing the chemical products for washing vehicles.

Each country is different, both for its cultural washing philosophy and for its techniques and final finish. Therefore, the range to offer is always different.

At Ibercompound we always adapt to the needs of each country and we offer the products that we believe may constitute an evolution in the way of washing and in its quality.

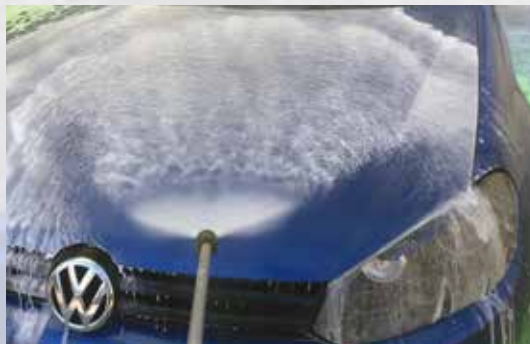

The *Ibercompound* team guarantees PROFESSIONALISM and SPECIALIZATION of our company focused on all vehicle washing processes always offering a service of PERSONAL ATTENTION, ASSISTANCE, SERVICE and COMMERCIAL TECHNICAL SUPPORT.

.PERSONALIZED ATTENTION with highly qualified personnel in different areas: General Coordination, Technical Department, Environmental Department, Risk Prevention, Technical Application, Environmental Technician and Technician in Legionella Treatments...

.TRAINING to Distributors and Clients.

.COLLABORATION to boost sales and profitability of the washing business.

.Study of joint PROMOTIONS.

Quality and Environment Certifications

Ibercompound has implemented a quality assurance system (ISO9001), an environmental management system (ISO14000) and a community environmental management and auditing system of the European Community (EMAS).

The only company in the sector with these 3 approvals.

All the products manufactured by *Ibercompound* are subjected to strict quality controls carried out in our laboratories to comply with the established specifications.

It is our philosophy to use raw materials of natural origin, compatible with the environment, reducing emissions and being more Biodegradable.

Accomplishing the REACH (UE) Regulation

Ibercompound accomplishes with all the requirements established by the Regulation (EC) No. 1907/2006, of June 1, 2007, of the European Parliament and of the Council, regarding the restriction of chemical substances and preparations (REACH).

Together we protect and care for our planet

Carbon Footprint Certificate

Ibercompound acquires a new certification granted by the Ministry for the Ecological Transition and the Demographic Challenge for its commitment to the fight against climate change and its reduction of emissions.

Certificate VDA

Ibercompound has obtained the VDA certificate which sets quality standards for the benefit of German car manufacturers and their suppliers.

The VDA standards have their origin in the Association of the German Automobile Industry (Verband der deutschen Automobilindustrie e.V), whose initials are VDA.
